Scores Yesterday. Barton Heights, 1; Brownies, 0. Manchester, 8; Richmond, 7.

There was great rejoicing in the Barton lieights camp yesterday aftermoon, when the fast team from the Northside defeated the hitherto invincible Brownies in one of the fastest and best played games of the season.

For nine innings it was nip and tuck with the two teams. The nitshars and the

For nine innings it was nip and tuck with the two teams. The pitchers and the men behind them doing fine work, gave the rooters lots of chance to work themselves into a condition of hourseness. Fluparick, Bache, Gibson and all the rest are now the heroes of the hour in Darton Heights, and the mayoralty question is of minor importance. It must no said that the Browpies were a little distinction of the majoralty question and the said that the Browpies were a little distinction of the majoralty while Thomas, at first, didn't seem strong enough for the company. He dropped out late in the game, and there was a general switch around.

cral switch around.

It was a case of one, two three almost up to the tenth. Nobody on either side had passed beyong third, and few had reached that point.

The tenth inning came with nothing to the credit of the Brownies, and Rose went to the bat. By the advice of Mayor Fose, he waited for balls and got them. Icone placed a hat one down to McEny.

Boone placed a hot one down to McEvoy. He let it go through, and there were two rien on bases, with nobody out, and the Imperial fans yelling like mad, with

Imperial fans yelling like mad, with Bache up.

Boone was nalled at second, and Taylor hit to McEvoy. Rose durted home, but was caught at the plate. Bache ran to third, and Taylor started for second. The crowd got excited, all the Barton Heights players lined up between third and home in their enthusiasm, and then an unlucky thing happened to the Brownies. McLeavy threw the ball to second to need Taylor. Like a deer, and partially nead Taylor. Like a deer, and partially nead Taylor. Like a deer, and partially shielded by his men, Bache made a streak for home, and got there, so far as the umpire or anybody else could see through the crowd of players, before the ball was returned to McLeavy, and the game was lost.

Tiveryrody enjoyed the contest, and it was said by an enthusiast that when their teams play together again the park won't be big enough to hold the crowd.

It is said that two men set fire to the building with waste cotton soaked in oil, a disnitity of which was found piled against a rear door. The incendiaries were driven off by colored men who were near the scelle at the time. Shortly after this there was a small fire in a tenement, house on Plum Street, in the western part of the city, which was extinguished by the fire department with little_loss.

About to clock this morning the department was again called out by a very dangerous fire in a large tobacco stemmery situated near East Tab5 Street, between Adams and Sycamore Streets, close to West Hill wagehouse, in one of the main business blocks of the dty.

The Crame stemmery burned flercely, and was catifely destroyed, communicating the flames to the adjacent West Hill warehouse.

The stemmery was owned by Mrs. John O. Burham and used by the Dunlop branch of the British American Tobacco Company for storage purposes. A small amount of tobacco belonging to W. I. Dannington and Company was in the building, but was saved. The building was value at 12,500. POISONED MEAT.

Gerald McCarthy, State biologist to the North Carolina Department of Agriculture, has just issued a valuable paper on "loisonous Food Proservatives," and dealing at length with the damating effect on the human system that is had by the preservatives now used by meat packers on "fresh meats," so called, and other foods. Among the most common and dangerous mentioned are boric acra and borax. He declares that by means of the secret and frequently denied use of these preservatives distant backers destroy the business of the local markets for farm grown beef, while the farmer is robbed of his local market and the consumer is poisoned. He urges the people to refuse to buy chemically preserved meats, and to require the butchers to warrant their metis, to be wholly free from every kind of chemical preservative.
